

## Motorbike Chain Lube

### Description

Fully synthetic chain grease. Extremely adhesive and water resistant. Excellent creeping and lubrication behavior. Especially suitable for high-speed chains. Reduces chain elongation and provides long chain service life. Biodegradability (Test CEC L-33T-82 in 21 days > 80 %). Optimal effectiveness only with un-mixed use. We recommend cleaning the chain with Motorbike Chain Cleaner (part no. 1602) before use.

### Properties

- reduces chain elongation
- friction and wear reducing
- resistant to acceleration forces
- excellent adhesion
- especially cold, hot and splash-water resistant
- highest load-carrying capacity
- excellent penetration action
- outstanding corrosion protection

### Technical data

Base	Syntheseöl, Additive / Synthetic oil, additives
Color / appearance	nicht bestimmt
Biodegradable	80 %
Operating temperature range	-30 bis +180 -30 to +180 °C
Water soluble	unlöslich / insoluble
Odor	charakteristisch / characteristic
Form	flüssig, aerosol / liquid, aerosol

### Areas of application

Initial and maintenance lubrication of power train chains. Especially suitable in dusty, dirty and corrosive atmospheres. For highly-stressed and high-speed chains with and without O-rings.

### Application

Carefully clean chain with solvent such as Motorbike Chain Cleaner (part no. 1602). Apply by spraying. The lubricant attains its final consistency and adherence once the solvent has rapidly evaporated.

### Available pack sizes

250 ml Can aerosol	1508 D-GB-I-E-P
250 ml Can aerosol	5962 D-F-I-GR
250 ml Can aerosol	8051 D-RUS-UA
